

4.3.1 Institution updates its ICT facilities including internet

Response:

Today, it is essential for the students to learn and master the latest technologies in order to be corporate ready. As a consequence, teachers are combining technology with traditional modes of instruction to engage students in long term learning. College uses Information and Communication

Technology (ICT) in education to support, enhance, and optimize the delivery of Education. The college has good IT facilities available for teaching-learning,. The institute has spacious, fully equipped lecture Halls. It provides the pupil-teachers with first-hand experience demonstration and practical skill development to handle with dexterity different equipment. Our goal is to standardize all multimedia equipment in every lecture Hall to allow faculty to have the same technical control and capabilities no matter where they are teaching on campus. Internet facility is made available to all faculty members and students inside the campus (Internet speed is 10 mbps.).

Over the years the college upgraded its hardware, software and allied facilities according to requirements. The college tries to introduce the latest technology in computing . In 2017-22 institute was equipped with ICT resources like 20 desktops ,three 1 LED projectors, computer , 1 LED TV AND 1 Pen drive in 2017-22 institute upgraded its ICT equipment and add some more devices like headphone – for language lab1-webcam 1-Printer (canon LASERJET)In the present year institute is equipped with upgraded ICT facilities like new Webcams, Details of ICT resources from 2017 to 2022 are given below.

- 1) 20 Desktops &
